

## Regulatory Indicators for Sustainable Energy (RISE) 2016 Country Data - Solomon Islands

### Energy Access

| Indicator  | Score |
|--|-------|
| Existence and monitoring of officially approved electrification plan | 0     |
| Scope of officially approved electrification plan                    | 0     |
| Framework for grid electrification                                   | 33.33 |
| Framework for minigrids  | 55.83 |
| Framework for stand-alone systems                                    | 22.22 |
| Consumer affordability of electricity                                | 17.15 |
| Utility Transparency and Monitoring                                  | 87.49 |
| Utility Creditworthiness   | 100   |
| <b>Total</b>   | 39.5  |

### Energy Efficiency

| Indicator   | Score |
|---|-------|
| National energy efficiency planning                       | 0     |
| Energy efficiency entities                                | 57.14 |
| Information provided to consumers about electricity usage | 52.08 |
| EE incentives from electricity rate structures            | 33.33 |
| Incentives & mandates: large consumers                    | 0     |
| Incentives & mandates: public sector                      | 0     |
| Incentives & mandates: utilities                          | 0     |
| Financing mechanisms for energy efficiency                | 0     |
| Minimum energy efficiency performance standards           | 0     |
| Energy labeling systems                                   | 0     |
| Building energy codes                                     | 0     |
| Carbon Pricing  | 0     |
| <b>Total</b>  | 11.88 |

## Regulatory Indicators for Sustainable Energy (RISE)

### Renewable Energy

| Indicator  | Score        |
|--|--------------|
| Legal framework for renewable energy                   | 100          |
| Planning for renewable energy expansion                | 38           |
| Incentives and regulatory support for renewable energy | 25           |
| Attributes of financial and regulatory incentives      | 33           |
| Network connection and pricing                         | 67           |
| Counterparty risk                                      | 62           |
| Carbon pricing and monitoring                          | 0            |
| <b>Total</b>   | <b>46.43</b> |
| <b>Overall Score</b>                                   | <b>32.6</b>  |

### Energy Access

| Existence and monitoring of officially approved electrification plan                            | Score |
|---|-------|
| Is there an officially approved national electrification plan?                                  | No    |
| If not, is there a draft electrification plan that has been prepared but not yet been approved? | Yes   |
| Name of the electrification plan  | 0     |
| Are the electrification plan and the updates publicly available?                                | No    |
| When was the last update of the electrification plan?   | 0     |
| Is there an institution responsible for tracking progress of the plan?                          | No    |
| Name of the tracking institution  | 0     |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |    |
|---|----|
| Is there a timeframe defined in the electrification plan? | No |
|---|----|

| Scope of officially approved electrification plan  | Score | 0  |
|--|-------|----|
| Does the plan target a service level (e.g., power availability, number of guaranteed hours of power supply, etc.)? |       | No |
| Details on service level target  |       | 0  |
| Does the electrification plan include both grid and off-grid?  |       | No |
| Does the plan include community facilities?  |       | No |
| Does the plan include productive use?  |       | No |
| Are there geospatial maps conveying the timeframe of planned grid extension?                                       |       | No |
| Are these geospatial maps made publicly available?   |       | No |

| Framework for grid electrification  | Score | 33.33  |
|---|-------|--|
| Does the government have a dedicated funding line or budget for electrification (e.g., funded national program, budget item, rural electrification fund to finance grid extension)?           |       | Yes  |
| Are there capital subsidies paid to the utilities to provide distribution systems to rural areas/villages?  |       | Yes  |
| Details on funding support for grid electrification   |       | Solomon Islands Government 2015: Approved Development Estimates, Budget Pape |
| Are there consumer financing mechanisms (i.e., utility loans, on bill financing, micro-loans, etc.) and/or direct subsidies available to support the payment of connection fees by consumers? |       | No   |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |    |
|--|----|
| Details on mechanisms to support the payment of connection fees  | 0  |
| Does the government specify standards of performance on reliability along with new connections (e.g., number of guaranteed hours per day, etc.)? | No |

| <b>Framework for minigrids</b>  | <b>Score</b> | <b>55.83</b> |
|---|--------------|--------------|
| Are minigrids legally allowed to operate in the country?  | Yes          |              |
| Name and date of the regulation for minigrids   | 0            |              |
| Can minigrids be owned and operated by private operators?   | Yes          |              |
| Do regulations clarify what will occur when the interconnected grid reaches a mini-grid?  | No           |              |
| To convert from a power producer to a power distributor that buys electricity from the interconnected grid and resells to its local customers | No           |              |
| To sell electricity to the interconnected grid operator and no longer sell electricity to retail customers                                    | No           |              |
| To sell its distribution grid to the interconnected grid operator and receive compensation for the sale of the asset                          | No           |              |
| Other   | No           |              |
| Do the regulations detail procedures for consumers to get connected to minigrids?   | No           |              |
| Do the regulations differ by size of minigrids?   | No           |              |
| Are mini-grid operators legally allowed to charge a different tariff from the national tariff?  | Yes          |              |
| Is there a retail electricity tariff schedule for minigrids?  | No           |              |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |  |
|---|--|
| Examples of minigrid tariffs  | 0  |
| Name of the regulation on minigrid tariffs  | 0  |
| Are there publicly funded mechanisms to secure viability gap funding for operators? | No                                       |
| Do subsidies exist for minigrids?   | Yes                                      |
| Details on subsidies for minigrids  | 0  |
| Name of the document referring to minigrid subsidies                                | SREP Investment Plan for Solomon Islands |
| Do subsidies exist for power generators?  | No                                       |
| Do subsidies exist for energy storage systems?                                      | No                                       |
| Do subsidies exist for distribution systems?  | No                                       |
| Do subsidies exist for monitoring systems?  | No                                       |
| Do subsidies exist for other equipment related to minigrids?                        | No                                       |
| Do duty exemptions exist for minigrid systems?                                      | Yes                                      |
| Details on duty exemptions for minigrids  | 0  |
| Name of the document referring to mini-grid duty exemptions                         | 0  |
| Do duty exemptions exist for power generators?                                      | No                                       |
| Do duty exemptions exist for energy storage systems?                                | No                                       |
| Do duty exemptions exist for distribution systems?                                  | No                                       |
| Do duty exemptions exist for monitoring systems?                                    | No                                       |
| Do duty exemptions exist for other equipment related to minigrids?                  | No                                       |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |                                     |
|--|-------------------------------------|
| Do subsidies exist for stand-alone systems?                                  | Yes                                 |
| Do subsidies exist for solar modules?  | No                                  |
| Do subsidies exist for batteries?  | No                                  |
| Do subsidies exist for charge controllers?                                   | No                                  |
| Do subsidies exist for power conditioning equipment?                         | No                                  |
| Do subsidies exist for safety equipment?                                     | No                                  |
| Do subsidies exist for other equipment related to stand-alone systems?       | No                                  |
| Details on subsidies for stand-alone systems                                 | 0                                   |
| Name of the document referring to subsidies for stand-alone systems          | Investment Plan for Solomon Islands |
| Do duty exemptions exist for stand-alone systems?                            | Yes                                 |
| Details on duty exemptions for stand-alone systems                           | 0                                   |
| Name of the document referring to duty exemptions for stand-alone systems    | 0                                   |
| Do duty exemptions exist for solar modules?                                  | No                                  |
| Do duty exemptions exist for batteries?                                      | No                                  |
| Do duty exemptions exist for charge controllers?                             | No                                  |
| Do duty exemptions exist for power conditioning equipment?                   | No                                  |
| Do duty exemptions exist for safety equipment?                               | No                                  |
| Do duty exemptions exist for other equipment related to stand-alone systems? | No                                  |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Are there legal restrictions that limit the prices standalone home system retailers or service providers can charge?           | No  |
| Are there specific financing facilities available to support operators/consumers to develop/purchase stand-alone home systems? | No  |
| Are there specific market financing facilities available to support operators to develop stand-alone systems?                  | No  |
| Are there specific government financing facilities available to support operators to develop stand-alone systems?              | No  |
| Are there specific market financing facilities available to support consumers to purchase stand-alone standalone systems?      | No  |
| Are there specific government financing facilities available to support consumers to purchase stand-alone standalone systems?  | No  |
| Are there technical standards detailing the requirements for minigrids to connect the grid?                                    | No  |
| Are technical standards made publicly available?   | No  |
| Name of the document detailing technical standards   | 0   |
| Are there safety standards for minigrids?  | Yes |
| Are these safety standards made publicly available?  | Yes |
| Name of the document detailing safety standards  | 0   |
| Does the government implement certification programs for minigrid installers?  | No  |
| Does the government provide or endorse certification programs for one or more components or equipment required for minigrids?  | No  |
| Has the government adopted international quality standards for stand-alone systems?  | No  |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |    |
|---|----|
| Name of the document detailing quality standards  | 0  |
| Has the government adopted international testing methods?   | No |
| Does the regulation accept testing done elsewhere/in another country (vs in-country testing required)?                  | No |
| Is there a governmental certified program for solar equipment installers?   | No |
| Are there environmental regulations on the disposal of solar devices and standalone home system products or components? | No |
| Name of document detailing environmental regulations  | 0  |

| <b>Framework for stand-alone systems</b>  | <b>Score</b>                             | <b>22.22</b> |
|---|--|--------------|
| Are there publicly funded mechanisms to secure viability gap funding for operators? | No                                       |              |
| Do subsidies exist for minigrids?   | Yes                                      |              |
| Details on subsidies for minigrids  | 0  |              |
| Name of the document referring to minigrid subsidies                                | SREP Investment Plan for Solomon Islands |              |
| Do subsidies exist for power generators?  | No                                       |              |
| Do subsidies exist for energy storage systems?                                      | No                                       |              |
| Do subsidies exist for distribution systems?  | No                                       |              |
| Do subsidies exist for monitoring systems?  | No                                       |              |
| Do subsidies exist for other equipment related to minigrids?                        | No                                       |              |
| Do duty exemptions exist for minigrid systems?                                      | Yes                                      |              |

| Has the wind resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?  | No |
| Are the wind resource planning or zoning guidance outputs publically available?  | No |
| Does the country have sufficient resource abundance to warrant a hydro resource atlas?   | No |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |    |
|--|----|
| Does the country publish or endorse a national hydro resource map or atlas?  | No |
| Hydro atlas is validated by ground-based water run-off data and/or site surveys from potential sites;  | No |
| Hydro atlas is accompanied by an explanation of the methodology and instrumentation  | No |
| Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of hydro resources?                    | No |
| Has the hydro resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?   | No |
| Are the hydro resource planning or zoning guidance outputs publically available?   | No |
| Does the country have sufficient resource abundance to warrant a biomass resource atlas?   | No |
| Does the country publish or endorse a national biomass resource map or atlas?  | No |
| Biomass atlas is validated by ground-based survey or officially reported data;   | No |
| Biomass atlas is accompanied by an explanation of the methodology and instrumentation.   | No |
| Has the biomass resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process? | No |
| Are the biomass resource planning or zoning guidance outputs publically available?   | No |
| Does the country have sufficient resource abundance to warrant a geothermal resource atlas?  | No |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |    |
|---|----|
| Does the country publish or endorse a national geothermal resource map or atlas?  | No |
| The government has collected and recorded well data at potential geothermal sites?  | No |
| Does the government publish a national geological map?  | No |
| The government has supported surface exploration (geological; geochemical; temp; gradient) at potential sites?  | No |
| The government has supported test drilling at at least one site (slim bore or full well)?   | No |
| The government has supported the creation of a reservoir model at at least one site?  | No |
| Has the country carried out strategic geothermal resource planning or produced zoning guidance to inform the commercial development of the resource?      | No |
| Has the geothermal resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process? | No |
| Are the geothermal resource planning or zoning guidance outputs publically available?   | No |

| <b>Incentives and regulatory support for renewable energy</b>   | <b>Score</b> | <b>25</b> |
|---|--------------|-----------|
| Is there at least one scheme to support renewable energy per unit of electricity generated? (e.g., feed-in tariff, competitive bidding/auction, mandates, generation premiums, production tax credits)? | Yes          |           |
| Feed-in tariff  | No           |           |
| Feed-in tariff - Solar  | No           |           |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |    |
|--|----|
| Auction 2 - Price ceiling  | No |
| Auction 2 - Winning bid (\$ cents/kWh)   |    |
| Auction 2 - Government body in charge  |    |
| Winning bid guaranteed off-take  | No |
| Mandates   | No |
| Generation premium   | No |
| Production tax credit  | No |
| Does the government offer other direct fiscal incentives for renewable energy (e.g. capital subsidies, grants or rebates, investment tax credits, tax reductions?) | No |
| Investment tax credit  | No |
| Accelerated depreciation   | No |
| Reduction in import taxes  | No |
| Reduction in sales tax or other taxes  | No |
| Does the country provide prioritized access to the grid for RE?  | No |
| Do RE projects receive priority in dispatch?   | No |
| Are there provisions to compensate seller if offtake infrastructure is not built in time?  | No |
| Are there mechanisms to compensate RE projects for lost generation due to certain curtailments after project commissioning?  | No |

**Attributes of financial and regulatory incentives**      **Score**      **33**

## Regulatory Indicators for Sustainable Energy (RISE)

|   |     |
|---|-----|
| Is the market entry mechanism for private RE projects defined? (e.g. 1st come 1st served; tenders)  | Yes |
| Details   | 0   |
| Are projects subject to development timelines or milestones?  | No  |
| Are tariffs indexed (in part or in whole) to an international currency or to inflation?   | No  |
| If there is a guaranteed tariff, is there a mechanism to adjust the level of the tariff for new entrants (e.g., declination)?   | N/A |
| If there is a guaranteed tariff, is there a mechanism to differentiate tariffs based on the size of the generation plant?   | N/A |
| If there is competitive bidding/auctions, are there provisions to ensure full and timely project completion (e.g., bid-bonds, project milestones, eligibility requirements) | N/A |
| If there is a renewable energy mandate, can it be met with tradable certificates (e.g., RECs, ROCs, TECs)?  | N/A |
| Is the price subsidy/benefit implied by a renewable energy incentive program passed through in full or in part to the final electricity consumer?                           | N/A |

| <b>Network connection and pricing</b>  | <b>Score</b> | <b>67</b> |
|--|--------------|-----------|
| Are there rules defining the allocation of connection costs?   | Yes          |           |
| What is the type of the connection cost allocation policy (i.e. shallow/deep)?   | Shallow      |           |
| Are there rules that allow electricity customers to purchase power directly from a third party (i.e. an entity other than the designated utility in a service area)? | No           |           |
| Do the rules define the size and allocation of costs for transmission and distribution wheeling charges? (e.g., wheeling charges, locational pricing?)               | No           |           |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |  |
|--|--|
| Do the rules consider customer type/size in determining eligibility for purchasing electricity from a third party?                       | No                                     |
| connection cost document   | SIEA Solar PV System Connection Manual |
| Does the country have a grid code that includes measures or standards addressing variable renewable energy?                              | Yes                                    |
| Is there more than one balancing area in the country?  | No                                     |
| Are there rules for exchanging power between balancing areas that penalize variable renewable energy (e.g. through imbalance penalties)? | N/A                                    |
| Are there provisions in the power exchange rules that allow for plant forecasting?   | N/A                                    |

| Counterparty risk  | Score | 62 |
|--|-------|----|
| Does the government offer or allow backing of utility payments (e.g. through a letter of credit, escrow account, payment guarantee, or other)? | No    |    |
| Information disclosure   | 29    |    |
| Are the financial statements of the largest utility publicly available?  | 0     |    |
| Are the financial statements of the largest generation company publicly available?   | Yes   |    |
| Are the financial statements of the largest transmission company publicly available?   | Yes   |    |
| Are the financial statements of the largest distribution company publicly available?   | Yes   |    |
| Are the financial statements of the largest retail electricity sales company publicly available?   | Yes   |    |

## Regulatory Indicators for Sustainable Energy (RISE)

|  |     |
|--|-----|
| Are the following metrics published in a primary official document (by the utility, regulator or ministry and/or government)?                                    | 0   |
| Is the transmission loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?                                | Yes |
| Is the distribution loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?                                | Yes |
| Is the bill collection rate published in a primary official document (by the utility, regulator or ministry and/or government)?                                  | No  |
| Is the amount of electricity available for sale to end-users published in a primary official document (by the utility, regulator or ministry and/or government)? | Yes |
| Information Auditing   | 33  |
| Financial statements independently audited?  | 0   |
| Are the financial statements of the largest generation company audited?  | Yes |
| Are the financial statements of the largest transmission company audited?  | Yes |
| Are the financial statements of the largest distribution company audited?  | Yes |
| Are the financial statements of the largest retail electricity sales company audited?  | Yes |
| Monitoring Reliability   | 0   |
| Is the utility operating an incidence/outage recording system (or SCADA/EMS with such functionality)?  | Yes |
| Is the utility measuring the SAIDI and SAIFI or any other measurements for service reliability?  | Yes |

## Regulatory Indicators for Sustainable Energy (RISE)

|   |  |
|---|--|
| Are the data reported to the regulatory body?             | No   |
| Are the data available to the public?                     | Yes  |
| Name of the selected utility                              | Solomon Islands Electricity Authority (SIEA) |
| data - 17.1. Current ratio (working capital ratio)        | 8  |
| data - 17.2 Debt Service Coverage Ratio                   | 117  |
| data - 17.3 Days payable outstanding                      | 33   |
| data - 17.4 EBITDA margin                                 | 0  |
| Current ratio (working capital ratio) of selected utility | 25   |
| Debt Service Coverage Ratio of selected utility           | 25   |
| Days payable outstanding of selected utility              | 25   |
| EBITDA margin of selected utility                         | 25   |

| <b>Carbon pricing and monitoring</b>   | <b>Score</b> | <b>0</b> |
|--|--------------|----------|
| Is there a carbon pricing mechanism in place?  | No           |          |
| For any carbon pricing mechanism (e.g. carbon tax, emission trading system), what is the portion of national GHG emissions covered)? | 0%           |          |
| Is there a monitoring, reporting and verification system for greenhouse gas emissions in place?                                      | No           |          |
