

Regulatory Indicators for Sustainable Energy (RISE) 2016 Country Data - Guinea

Energy Access

Indicator	Score
Existence and monitoring of officially approved electrification plan	80
Scope of officially approved electrification plan	75
Framework for grid electrification	16.67
Framework for minigrids	68.33
Framework for stand-alone systems	17.78
Consumer affordability of electricity	100
Utility Transparency and Monitoring	66.66
Utility Creditworthiness	34.63
Total	57.38

Energy Efficiency

Indicator	Score
National energy efficiency planning	91.67
Energy efficiency entities	71.43
Information provided to consumers about electricity usage	52.78
EE incentives from electricity rate structures	51.85
Incentives & mandates: large consumers	77.78
Incentives & mandates: public sector	0
Incentives & mandates: utilities	0
Financing mechanisms for energy efficiency	0
Minimum energy efficiency performance standards	50
Energy labeling systems	50
Building energy codes	0
Carbon Pricing	0
Total	37.13

Regulatory Indicators for Sustainable Energy (RISE)

Renewable Energy

Indicator	Score
Legal framework for renewable energy	100
Planning for renewable energy expansion	53
Incentives and regulatory support for renewable energy	25
Attributes of financial and regulatory incentives	0
Network connection and pricing	0
Counterparty risk	67
Carbon pricing and monitoring	0
Total	35
Overall Score	43.17

Energy Access

Existence and monitoring of officially approved electrification plan	Score	80
Is there an officially approved national electrification plan?		Yes
If not, is there a draft electrification plan that has been prepared but not yet been approved?		No
Name of the electrification plan		Master Plan for Electrification
Are the electrification plan and the updates publicly available?		Yes
When was the last update of the electrification plan?		2006
Is there an institution responsible for tracking progress of the plan?		Yes
Name of the tracking institution		Electricité de Guinée (EDG) at the national

Regulatory Indicators for Sustainable Energy (RISE)

	level, Management Company of Manantali (MCM/SOGEM) at the sub regional level, and West African Power Pool (WAPP) at the regional level
Is there a timeframe defined in the electrification plan?	Yes

Scope of officially approved electrification plan	Score	75
Does the plan target a service level (e.g., power availability, number of guaranteed hours of power supply, etc.)?		No
Details on service level target		0
Does the electrification plan include both grid and off-grid?		Yes
Does the plan include community facilities?		Yes
Does the plan include productive use?		Yes
Are there geospatial maps conveying the timeframe of planned grid extension?		Yes
Are these geospatial maps made publicly available?		Yes

Framework for grid electrification	Score	16.67
Does the government have a dedicated funding line or budget for electrification (e.g., funded national program, budget item, rural electrification fund to finance grid extension)?		Yes
Are there capital subsidies paid to the utilities to provide distribution systems to rural areas/villages?		No
Details on funding support for grid electrification		N/A

Regulatory Indicators for Sustainable Energy (RISE)

Are there consumer financing mechanisms (i.e., utility loans, on bill financing, micro-loans, etc.) and/or direct subsidies available to support the payment of connection fees by consumers?	No
Details on mechanisms to support the payment of connection fees	0
Does the government specify standards of performance on reliability along with new connections (e.g., number of guaranteed hours per day, etc.)?	No

Framework for minigrids	Score	68.33
Are minigrids legally allowed to operate in the country?	Yes	
Name and date of the regulation for minigrids	Act L/2013/061/CNT on rural electrification sub sector - September 2013 (Loi L/2013/061/CNT du 20 septembre 2013 portant sous-secteur de l'électrification rurale)	
Can minigrids be owned and operated by private operators?	Yes	
Do regulations clarify what will occur when the interconnected grid reaches a mini-grid?	No	
To convert from a power producer to a power distributor that buys electricity from the interconnected grid and resells to its local customers	No	
To sell electricity to the interconnected grid operator and no longer sell electricity to retail customers	No	
To sell its distribution grid to the interconnected grid operator and receive compensation for the sale of the asset	No	
Other	No	

Regulatory Indicators for Sustainable Energy (RISE)

Do the regulations detail procedures for consumers to get connected to minigrids?	No
Do the regulations differ by size of minigrids?	No
Are mini-grid operators legally allowed to charge a different tariff from the national tariff?	Yes
Is there a retail electricity tariff schedule for minigrids?	No
Examples of minigrid tariffs	0
Name of the regulation on minigrid tariffs	0
Are there publicly funded mechanisms to secure viability gap funding for operators?	Yes
Do subsidies exist for minigrids?	Yes
Details on subsidies for minigrids	Upto 50% of investment costs for diesel technology, and 70% for renewable energy technology (Decentralized Rural Electrification Fund - FERD)
Name of the document referring to minigrid subsidies	0
Do subsidies exist for power generators?	Yes
Do subsidies exist for energy storage systems?	Yes
Do subsidies exist for distribution systems?	Yes
Do subsidies exist for monitoring systems?	No
Do subsidies exist for other equipment related to minigrids?	No
Do duty exemptions exist for minigrid systems?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Details on duty exemptions for minigrids	N/A
Name of the document referring to mini-grid duty exemptions	Joint decree related to exemptions of decentralised rural electrification operations (Arrêté conjoint portant défiscalisation des opérations d'électrification rurale décentralisée)
Do duty exemptions exist for power generators?	Yes
Do duty exemptions exist for energy storage systems?	Yes
Do duty exemptions exist for distribution systems?	Yes
Do duty exemptions exist for monitoring systems?	No
Do duty exemptions exist for other equipment related to minigrids?	No
Do subsidies exist for stand-alone systems?	No
Do subsidies exist for solar modules?	No
Do subsidies exist for batteries?	No
Do subsidies exist for charge controllers?	No
Do subsidies exist for power conditioning equipment?	No
Do subsidies exist for safety equipment?	No
Do subsidies exist for other equipment related to stand-alone systems?	No
Details on subsidies for stand-alone systems	0
Name of the document referring to subsidies for stand-alone systems	0

Regulatory Indicators for Sustainable Energy (RISE)

Do duty exemptions exist for stand-alone systems?	No
Details on duty exemptions for stand-alone systems	0
Name of the document referring to duty exemptions for stand-alone systems	0
Do duty exemptions exist for solar modules?	No
Do duty exemptions exist for batteries?	No
Do duty exemptions exist for charge controllers?	No
Do duty exemptions exist for power conditioning equipment?	No
Do duty exemptions exist for safety equipment?	No
Do duty exemptions exist for other equipment related to stand-alone systems?	No
Are there legal restrictions that limit the prices standalone home system retailers or service providers can charge?	No
Are there specific financing facilities available to support operators/consumers to develop/purchase stand-alone home systems?	No
Are there specific market financing facilities available to support operators to develop stand-alone systems?	No
Are there specific government financing facilities available to support operators to develop stand-alone systems?	No
Are there specific market financing facilities available to support consumers to purchase stand-alone standalone systems?	No
Are there specific government financing facilities available to support consumers to purchase stand-alone standalone systems?	No
Are there technical standards detailing the requirements for minigrids to connect the grid?	No

Regulatory Indicators for Sustainable Energy (RISE)

Are technical standards made publicly available?	No
Name of the document detailing technical standards	0
Are there safety standards for minigrids?	Yes
Are these safety standards made publicly available?	Yes
Name of the document detailing safety standards	Decentralized Rural Electrification Project - Guide on Specific Technical Conditions (Cahier des Clauses Techniques Particulières - CCTP))
Does the government implement certification programs for minigrid installers?	No
Does the government provide or endorse certification programs for one or more components or equipment required for minigrids?	No
Has the government adopted international quality standards for stand-alone systems?	Yes
Name of the document detailing quality standards	List of electro-technical standards from Guinea's Standards and Metrology Institute
Has the government adopted international testing methods?	No
Does the regulation accept testing done elsewhere/in another country (vs in-country testing required)?	No
Is there a governmental certified program for solar equipment installers?	No
Are there environmental regulations on the disposal of solar devices and standalone home system products or components?	No

Regulatory Indicators for Sustainable Energy (RISE)

Name of document detailing environmental regulations	0

Regulatory Indicators for Sustainable Energy (RISE)

Consumer affordability of electricity	Score	100
What is the annual cost of subsistence consumption (30kWh/month) as a percentage of GNI per household of bottom 20 percent of population?		1.08545707152744%
Tariff schedule / tariff structure taken into account		Electricite de Guinee, June 2015
Is there a mechanism to support low-volume consumers such as cross-subsidization, social or lifeline tariff?		Yes

Utility Transparency and Monitoring	Score	66.66
Are the financial statements of the largest generation company publicly available?		Yes
Are the financial statements of the largest transmission company publicly available?		Yes
Are the financial statements of the largest distribution company publicly available?		Yes
Are the financial statements of the largest retail electricity sales company publicly available?		Yes
Are the financial statements of the largest generation company audited?		Yes
Are the financial statements of the largest transmission company audited?		Yes
Are the financial statements of the largest distribution company audited?		Yes
Are the financial statements of the largest retail electricity sales company audited?		Yes
Is the transmission loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?		Yes

Regulatory Indicators for Sustainable Energy (RISE)

Is the distribution loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?	Yes
Is the bill collection rate published in a primary official document (by the utility, regulator or ministry and/or government)?	Yes
Is the amount of electricity available for sale to end-users published in a primary official document (by the utility, regulator or ministry and/or government)?	Yes
Is the utility operating an incidence/outage recording system (or SCADA/EMS with such functionality)?	No
Is the utility measuring the SAIDI and SAIFI or any other measurements for service reliability?	No
Are the measurements reported to the regulatory body?	No
Are the measurements available to public?	No

Utility Creditworthiness	Score	34.63
Current ratio (working capital ratio) of selected utility	0	
EBITDA margin of selected utility	25	
Debt service coverage ratio of selected utility	0	
Days payable outstanding of selected utility	9.6338518519	

Energy Efficiency

National energy efficiency planning	Score	91.67
Is there legislation or a national action plan that aims to increase EE?	Yes	

Regulatory Indicators for Sustainable Energy (RISE)

Name of EE legislation or action plan	Guinee_Cadre institutionnel et réglementaire
Is there an energy efficiency goal or target at the national level?	Yes
National target details	<p>According to the study, the overall objectives are : (i) Improve the efficiency of lighting in residential and professional sectors, (ii) Improve and ensure a good quality of network service (iii) Improve the energy efficiency of large consumers and (iv) Raise awareness and inform the public on energy efficiency measures. These objectives are measured in MWh, MW, tep and CO2 avoided see :</p> <p>1) IMPLEMENTATION OF ENERGY SAVING MEASURES (framework logic efficient lighting-Column Expected results-pages 110 to 113 and logical framework improving power factor-column Expected results-page 115 and logical framework energy audit-Column Expected results and performance indicators- pages 117 to 118) ; 2) DESIGN AND IMPLEMENTATION OF AN EFFICIENT LIGHTING PROGRAM (Tables, 31 to 34 related to energy gains- page 85 and tables 35 and 36 related to avoided emissions of CO2 -page 86)</p>

Regulatory Indicators for Sustainable Energy (RISE)

Is there a target for the residential sector?	Yes
Target details	Reduction in the consumption of lighting in kWh see _x000D_DESIGN AND IMPLEMENTATION OF AN EFFICIENT LIGHTING PROGRAM- Tables 31 and 33,page 85
Does the target have a milestone or deadline?	Yes
Is there a commercial services sector target?	Yes
Target details	Reduction in consumption of lighting and air conditioning in kWh see _x000D_DESIGN AND IMPLEMENTATION OF AN EFFICIENT LIGHTING PROGRAM- Tables 32 and 34 _x000D_page 85
Does the target have a milestone or deadline?	Yes
Is there an industrial sector target?	Yes
Target details	Reduction of consumption of lighting, air conditioning and industrial processes in kWh _x000D_see_x000D_SYNTHESIS REPORT OF THE ENERGY AUDIT OF THE BIG ENERGY CONSUMERS,
Does the target have a milestone or deadline?	Yes
Is there a power sector target?	No

Regulatory Indicators for Sustainable Energy (RISE)

Target details	Reduction in the consumption of electricity for a better quality of service
Does the target have a milestone or deadline?	No

Energy efficiency entities	Score	71.43
Are there governmental and/or independent bodies dedicated to setting EE strategy?	Yes	
Name of entity	1) Agence nationale d'Efficacité Energétique/national Energy Efficiency Agency "ANEE/NEEA"	
Are there governmental and/or independent bodies dedicated to setting EE standards?	Yes	
Name of entity	1) "ANEE/NEEA"_x000D_2) Guinean Institute of Standardization and Metrology (GISM/IGNM)	
Are there governmental and/or independent bodies dedicated to regulating EE activities of energy suppliers?	No	
Name of entity	0	
Are there governmental and/or independent bodies dedicated to regulating EE activities of energy consumers?	Yes	
Name of entity	"ANEE/NEEA"	
Are there governmental and/or independent bodies dedicated to certifying compliance with equipment EE standards?	Yes	
Name of entity	1) "ANEE/NEEA"_x000D_2) GISM/IGNM	

Regulatory Indicators for Sustainable Energy (RISE)

Are there governmental and/or independent bodies dedicated to certifying compliance with building EE standards?	No
Name of entity	0
Are there governmental and/or independent bodies dedicated to selecting and/or approving third party auditors tasked with certifying EE standards?	Yes
Name of entity	"ANEE/NEEA"

Information provided to consumers about electricity usage	Score	52.78
Residential customers		
Is it mandatory for utilities to provide reports of their energy usage, in a bill or by other means?	Yes	
Commercial customers		
Is it mandatory for utilities to provide reports of their energy usage, in a bill or by other means?	Yes	
Industrial customers		
Is it mandatory for utilities to provide reports of their energy usage, in a bill or by other means?	Yes	
Residential customers		
At what intervals do customers receive these reports (times per year)?	6	
Do the reports include the price levels customers pay for energy usage?	Yes	
Commercial customers		

Regulatory Indicators for Sustainable Energy (RISE)

At what intervals do customers receive these reports (times per year)?	6
Do the reports include the price levels customers pay for energy usage?	Yes
Industrial customers	
At what intervals do customers receive these reports (times per year)?	12
Do the reports include the price levels customers pay for energy usage?	Yes
Does the regulator track utilities' compliance with laws for providing energy usage information to customers?	No
Residential customers	
Do customers receive a bill or report which compares them to other users in the same region and/or usage class?	No
Method of comparison	N/A
Commercial customers	
Do customers receive a bill or report which compares them to other users in the same region and/or usage class?	No
Method of comparison	N/A
Industrial customers	
Do customers receive a bill or report which compares them to other users in the same region and/or usage class?	No
Method of comparison	N/A

Do customers pay demand charges (per kW)?	Yes
Do customers pay reactive power charges (per kVAR)?	No
Commercial customers	
Do customers pay energy charges (per kWh)?	Yes
Do customers pay demand charges (per kW)?	Yes
Do customers pay reactive power charges (per kVAR)?	No
Industrial customers	
Do customers pay energy charges (per kWh)?	Yes
Do customers pay demand charges (per kW)?	Yes
Do customers pay reactive power charges (per kVAR)?	No
Residential customers	

Regulatory Indicators for Sustainable Energy (RISE)

Are customers charged based on real-time pricing?	No
Are customers charged based on variable peak pricing?	No
Are customers charged based on critical peak pricing?	No
Are tariffs adjusted according to seasons?	No
Do customers pay according to time-of-day electricity use or receive peak-time rebates?	No
Commercial customers	
Are customers charged based on real-time pricing?	No
Are customers charged based on variable peak pricing?	No
Are customers charged based on critical peak pricing?	No
Are tariffs adjusted according to seasons?	No
Do customers pay according to time-of-day electricity use or receive peak-time rebates?	No
Industrial customers	
Are customers charged based on real-time pricing?	No
Are customers charged based on variable peak pricing?	No
Are customers charged based on critical peak pricing?	No
Are tariffs adjusted according to seasons?	No
Do customers pay according to time-of-day electricity use or receive peak-time rebates?	No

Incentives & mandates: large consumers

Score

77.78

Regulatory Indicators for Sustainable Energy (RISE)

What is the threshold for classifying large consumers?	toe/year
Large consumer EE mandate/incentive regulations	
Is it required for the consumption and/or savings of large-scale energy users to be tracked and documented on a regular basis?	Yes
Are efficiency targets mandated for large consumers?	Yes
Details	kWh
Are energy audits mandated for large consumers?	Yes
Are energy efficiency progress reports mandated for large consumers?	Yes
Interval of reports	3 years for transports and industrial establishments; 5 years for tertiary establishments (p124)
Are energy-management systems mandated for large consumers?	No
Details	0
Are there penalties in place for non-compliance with regulatory obligations for large consumers?	Yes
Is there a measurement and verification program in place?	Yes
Is verification done by a third party?	No
Are there financial incentives for large consumers to invest in energy efficiency?	Yes
Details	Financial benefits
Are there tax incentives for large consumers to invest in energy efficiency?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Are there other incentives for large consumers to invest in energy efficiency?	No
Details	0
Is there a program to publicly recognize large-scale users that have achieved significant energy savings measures?	No
Are energy savings and/or financial savings publicized?	No
Does the program offer assistance (from a government or independent entity) to large-scale users to identify energy savings investments opportunities?	Yes
Primary Energy Consumption (MJ - latest GTF data from 2012)	0

Incentives & mandates: public sector	Score	0
Are there binding energy savings obligations for public buildings?		No
Are energy savings from efficiency activities at public buildings tracked (either in-house or by a third party)?		No
Are there binding energy savings obligations for other public facilities (may include water supply, wastewater services, municipal solid waste, street lighting, transportation, and heat supply)?		No
Are energy savings from efficiency activities at other public facilities tracked?		No
Is there a specific policy or mandated guidelines for public procurement of energy-efficient products and services?		No
Public procurement guidelines for EE		
Do public budgeting regulations and practices allow public entities to retain energy savings?		No

Regulatory Indicators for Sustainable Energy (RISE)

Public budgeting regulations for EE	
-------------------------------------	--

Incentives & mandates: utilities	Score	0
Name of utility energy efficiency regulation program		
Electricity generation		
Are utilities required to carry out energy efficiency activities in this area?		No
Details		
Are energy savings or other target indicators measured to track performance in meeting EE requirements?		No
Are the requirements measured/validated by an independent third party?		No
Are there penalties in place for non-compliance with EE requirements?		No
Are there mandates or incentives for new and/or brownfield co-generation?		No
Transmission & distribution		
Are utilities required to carry out energy efficiency activities in this area?		No
Details		
Are energy savings or other target indicators measured to track performance in meeting EE requirements?		No
Are the requirements measured/validated by an independent third party?		No
Are there penalties in place for non-compliance with EE requirements?		No

Regulatory Indicators for Sustainable Energy (RISE)

Demand-side management -	
Are utilities required to carry out energy efficiency activities in this area?	No
Details	0
Are energy savings or other target indicators measured to track performance in meeting EE requirements?	No
Are the requirements measured/validated by an independent third party?	No
Are there penalties in place for non-compliance with EE requirements?	No
Is there a demand-side management department within the selected utility?	Yes
Do utilities provide customers incentives for demand response, such as peak-time rebates?	No
Is there public budget funding available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Is there compensation for revenue losses via a tracking account available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Are there credit lines available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy,	No

Regulatory Indicators for Sustainable Energy (RISE)

authorization or other mediation procedure?	
Are these available as government-driven financing mechanisms?	No
Are there partial risk guarantees available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Is there program cost recovery available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Is there ESCO financing available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy, authorization or other mediation procedure?	No
Are these available as government-driven financing mechanisms?	No
Is there on-bill financing/re-payment available for utilities to recover costs associated with or revenue lost from mandated energy efficiency activities?	No
Are these available as solely market-driven financing mechanisms without any direct government approval, subsidy,	No

Regulatory Indicators for Sustainable Energy (RISE)

authorization or other mediation procedure?	
Are these available as government-driven financing mechanisms?	No

	sector PS_x000D_x000D_2) Achieving of 8500 GWh of new hydro energy generation capacity according to the ECOWAS matser plan_x000D_x000D_3) Achieving to 2289 MW (6326 GWh) of new hydro generaion capacity according to the SBDO/OMVS CEP.
Biomass target	Satisfaction with biofuel of 4% of rural motorization needs in 2025
Geothermal target	
Does a renewable energy action plan or strategy to attain the target exist?	Yes
Name of the action plan	0
Does the plan or startegy define the amount of investment necessary to meet the RE target?	Yes
The amount of investment identified	0
Is there an institution responsible for tracking progress in renewable energy development?	Yes
Name of the institution	0
Does an electricity generation plan that includes renewable energy development exist?	Yes
Name of the generation plan	0
Is the expansion plan based on a probabilistic approach?	No

Regulatory Indicators for Sustainable Energy (RISE)

Does the current transmission planning consider renewable energy scale-up?	Yes
Name of the transmission plan	0
Has the country conducted a variable renewable energy integration study?	No
Name of the integration study	0
Year of the integration study	
Does the country have sufficient resource abundance to warrant a solar resource atlas?	Yes
Does the government publish or endorse a solar resource atlas or other data on the abundance and quality of the resource?	No
Solar atlas is validated by at least 5 ground-based measurements taken for a period of at least a year;	No
Solar atlas has a spatial resolution of 5km or less;	No
Solar atlas is based on modeling inputs covering at least a 10 year period;	No
Solar atlas is accompanied by an explanation of the methodology and instrumentation	No
Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of solar resources?	No
Has the solar resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?	No
Are the solar resource planning or zoning guidance outputs publically available?	No
Does the country have sufficient resource abundance to warrant a wind resource atlas?	Yes

Regulatory Indicators for Sustainable Energy (RISE)

Does the government publish or endorse a wind resource atlas or other data on the abundance and quality of the resource?	No
Wind atlas is validated by at least 5 ground-based measurements taken for a period of at least a year;	No
Wind atlas has a spatial resolution of 5km or less;	No
Wind atlas is based on modeling inputs covering at least a 10 year period;	No
Wind atlas is accompanied by an explanation of the methodology and instrumentation	No
Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of wind resources?	No
Has the wind resource planning or zoning guidance been undertaken as part of a strategic environmental and social assessment or equivalent process?	No
Are the wind resource planning or zoning guidance outputs publically available?	No
Does the country have sufficient resource abundance to warrant a hydro resource atlas?	Yes
Does the country publish or endorse a national hydro resource map or atlas?	Yes
Hydro atlas is validated by ground-based water run-off data and/or site surveys from potential sites;	Yes
Hydro atlas is accompanied by an explanation of the methodology and instrumentation	Yes
Has the country carried out strategic planning or produced zoning guidance to inform the commercial development of hydro resources?	No
Has the hydro resource planning or zoning guidance been undertaken as part of a strategic environmental and social	No

Auction 2 - Government body in charge	
Winning bid guaranteed off-take	No
Mandates	No
Generation premium	No
Production tax credit	No
Does the government offer other direct fiscal incentives for renewable energy (e.g. capital subsidies, grants or rebates,	Yes

Regulatory Indicators for Sustainable Energy (RISE)

investment tax credits, tax reductions?)	
Investment tax credit	No
Accelerated depreciation	No
Reduction in import taxes	Yes
Reduction in sales tax or other taxes	Yes
Does the country provide prioritized access to the grid for RE?	No
Do RE projects receive priority in dispatch?	No
Are there provisions to compensate seller if offtake infrastructure is not built in time?	No
Are there mechanisms to compensate RE projects for lost generation due to certain curtailments after project commissioning?	No

Attributes of financial and regulatory incentives	Score	0
Is the market entry mechanism for private RE projects defined? (e.g. 1st come 1st served; tenders)		No
Details		0
Are projects subject to development timelines or milestones?		No
Are tariffs indexed (in part or in whole) to an international currency or to inflation?		No
If there is a guaranteed tariff, is there a mechanism to adjust the level of the tariff for new entrants (e.g., declination)?		N/A
If there is a guaranteed tariff, is there a mechanism to differentiate tariffs based on the size of the generation plant?		N/A

Regulatory Indicators for Sustainable Energy (RISE)

If there is competitive bidding/auctions, are there provisions to ensure full and timely project completion (e.g., bid-bonds, project milestones, eligibility requirements)	N/A
If there is a renewable energy mandate, can it be met with tradable certificates (e.g., RECs, ROCs, TECs)?	N/A
Is the price subsidy/benefit implied by a renewable energy incentive program passed through in full or in part to the final electricity consumer?	N/A

Network connection and pricing	Score	0
Are there rules defining the allocation of connection costs?	No	
What is the type of the connection cost allocation policy (i.e. shallow/deep)?	N/A	
Are there rules that allow electricity customers to purchase power directly from a third party (i.e. an entity other than the designated utility in a service area)?	No	
Do the rules define the size and allocation of costs for transmission and distribution wheeling charges? (e.g., wheeling charges, locational pricing?)	No	
Do the rules consider customer type/size in determining eligibility for purchasing electricity from a third party?	No	
connection cost document	0	
Does the country have a grid code that includes measures or standards addressing variable renewable energy?	No	
Is there more than one balancing area in the country?	No	
Are there rules for exchanging power between balancing areas that penalize variable renewable energy (e.g. through imbalance penalties)?	N/A	

Regulatory Indicators for Sustainable Energy (RISE)

Are there provisions in the power exchange rules that allow for plant forecasting?	N/A
--	-----

Counterparty risk	Score	67
Does the government offer or allow backing of utility payments (e.g. through a letter of credit, escrow account, payment guarantee, or other)?		Yes
Information disclosure		33
Are the financial statements of the largest utility publicly available?		0
Are the financial statements of the largest generation company publicly available?		Yes
Are the financial statements of the largest transmission company publicly available?		Yes
Are the financial statements of the largest distribution company publicly available?		Yes
Are the financial statements of the largest retail electricity sales company publicly available?		Yes
Are the following metrics published in a primary official document (by the utility, regulator or ministry and/or government)?		0
Is the transmission loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?		Yes
Is the distribution loss rate published in a primary official document (by the utility, regulator or ministry and/or government)?		Yes
Is the bill collection rate published in a primary official document (by the utility, regulator or ministry and/or government)?		Yes

Regulatory Indicators for Sustainable Energy (RISE)

Is the amount of electricity available for sale to end-users published in a primary official document (by the utility, regulator or ministry and/or government)?	Yes
Information Auditing	33
Financial statements independently audited?	0
Are the financial statements of the largest generation company audited?	Yes
Are the financial statements of the largest transmission company audited?	Yes
Are the financial statements of the largest distribution company audited?	Yes
Are the financial statements of the largest retail electricity sales company audited?	Yes
Monitoring Reliability	0
Is the utility operating an incidence/outage recording system (or SCADA/EMS with such functionality)?	No
Is the utility measuring the SAIDI and SAIFI or any other measurements for service reliability?	No
Are the data reported to the regulatory body?	No
Are the data available to the public?	No
Name of the selected utility	Electricite de Guinea
data - 17.1. Current ratio (working capital ratio)	1
data - 17.2 Debt Service Coverage Ratio	0
data - 17.3 Days payable outstanding	128
